Mohan Siva Kumar Magapati

Mohansivakumar017 LinkedIn magapatimohan@gmail.com +91 96186 90962

Summary

Computer Science undergraduate with strong foundations in Data Structures and Algorithms, backend development, and AWS. Solved 730+ LeetCode problems with a maximum rating of 1988 and earned the Knight Badge. AWS Certified Developer Associate with hands-on experience building backend applications using Python and AWS.

Education

2023 – 2027 **Aditya College of Engineering** CGPA: 6.94/10
B.Tech in Computer Science and Engineering (Data Science)

Skills & Achievements

Technical Skills

- Languages: C, C++, Java, Python
- Frontend: HTML, CSS, JavaScript
- Backend: Flask, FastAPI, REST APIs
- Databases: MySQL, PostgreSQL, Oracle
- Cloud: AWS (EC2, S3, Lambda, SNS, API Gateway, DynamoDB, CloudWatch)
- Tools: Git, Docker, Linux

Achievements

- 4th among 1,500+ participants in a 4-day, multi-round SQL Competition organized by Aditya University in collaboration with Oracle Academy.
- Solved 730+ problems on LeetCode
- Maximum LeetCode Rating: 1988
- Earned the Knight Badge on LeetCode
- 18 Stars on HackerRank
- 2 Star on CodeChef

Projects

LinkHub – Enterprise Link Management Platform *Ongoing*

- Developing a multi-tenant link-management platform using FastAPI, PostgreSQL, JWT authentication, organizations, and role-based access control.
- Implemented advanced URL management with custom aliases, expiration, one-time links, click limits, archiving, duplication, and bulk operations.
- Added Redis caching, rate limiting, Celery background processing, click analytics, and Docker-based deployment.

Weather Monitoring and Alert System

- Developed a Flask-based weather monitoring system using external APIs and RESTful APIs for weather data processing.
- Implemented weather-based real-time alerts using AWS SNS and deployed the application on EC2 with S3 storage and CloudWatch monitoring.
- Built a responsive frontend using HTML, CSS, and JavaScript for weather visualization.

Experience

AWS Development with DevOps Training Program – Technical Hub

- Built CI/CD pipelines using GitHub Actions and AWS CodePipeline and containerized applications using Docker.
- Deployed applications on AWS EC2 and S3 while automating workflows using Python and Bash.
- Collaborated using Git and followed DevOps best practices.

Certifications

- AWS Certified Developer Associate (DVA-C02)
- Oracle Certified Foundations Associate – Java
- Oracle Certified Foundations Associate – Database
